

GEMINI

By: Sampson Mills

Made in NYC

Gemini - Baffle For Acoustic Ceilings

Acoustic

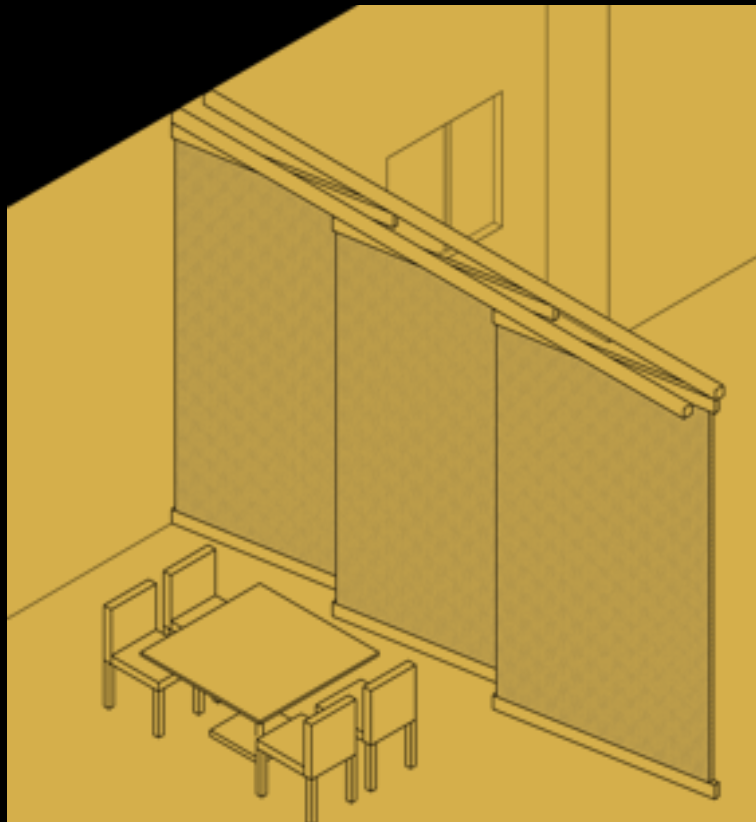

Great for music studios or just to help with the echo in that open concept room

Baffle

Though it gives great acoustics it also helps give color and personality to the room.

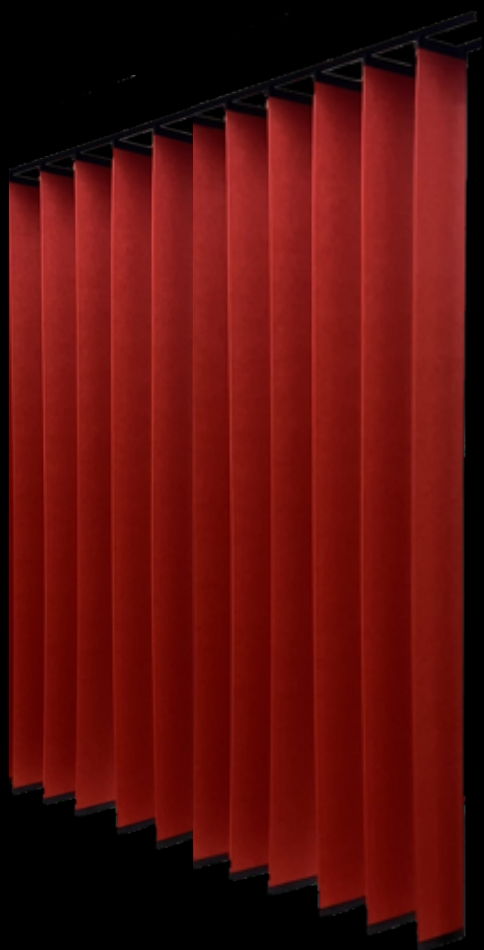

Room Divider

Helps define spaces and can retract to open up the room for larger parties or gatherings.

Gemini - Vertical

For space dividing and views

Privacy

Due to the predetermined angles of this system when installing you can have privacy where you need it and keep your views where you don't.

Curving

You can now curve the system due to our Proprietary system Design.

Min Radius: 10"

Max Radius: No Maximum

"Where your creativity can flourish with our ingenuity."
